Tax Deadline Jan. 31; Avoid Penalty

Citizens Urged to Pay Poll Taxes in Order to Vote in Primaries; Time Is Short

Saturday night will be the deadline for 1941 tax payments.

Unless there is considerable pickup in poll tax payments, the voting strength of Randall county will be materially cut this year. However, this is to be expected due to more than 225 young men now enlisted in military service, and few of them having paid their poll tax.

Due to the fact that public officials all the way from precinct to United States senator will be elected this year, all qualified citizens of Randall county should pay their poll taxes before Saturday night and be prepared to participate in the elections this year.

Taxes which are not paid by Saturday night will be delinquent and interest and penalties will be added.

No call has been received for the induction of men into military service, but this call is expected any day.

Sheriff M. E. Cantrell is looking for a man who collected money recently under the guise of soliciting subscriptions for the Canyon News. The News has no authorized solicitors aside from the regular staff. The man was a fake, but likely got away with a small amount of money.

If any person seeks your subscription to the News, please call this office, or the Sheriff at once as such a person is a grafter.

Farmers Meet For '42 Plans

County Agent Upchurch To Discuss New Program For the Food Front Campaign

The 1942 farm Program and how to make it fit Randall county will be the subject of discussion by County Agent W. H. Upchurch at community meetings which will be held beginning at 7:30 p. m. according to the following schedule:

Highland, Monday, Feb. 2.
Trigg, Tuesday, Feb. 3.
Park, Wednesday, Feb. 4.
Stone, Thursday, Feb. 5.
Jowell, Friday, Feb. 6.
Sunny Hill, Monday, Feb. 9.
Ralph, Tuesday, Feb. 10.
Canyon, Wednesday, Feb. 11.
Umbarger, Thursday, Feb. 12.

Because of radical changes in the farm program for 1942 there is a lot of misunderstanding that may prove costly to a great many farmers this year.

The Farm Bureau committee will be in charge of the meetings. The 1942 community committeemen for the Farm Bureau will be elected.

Red Cross Classes Are Opened to the Local Citizens

All people who have signed up for Red Cross First Aid Classes should report Tuesday, Wednesday, or Thursday night next week, according to the night for which each enrolled.

J. W. Shook, chairman of the local chapter, urged that each person report on the evening for which he signed. Classes begin at 7:30 o'clock and are held in the Red Cross headquarters on the west side of the square. Classes are taught by the three Canyon medical doctors, Dr. R. A. Neblett, Dr. C. E. Donnell, and Dr. Robert Jarrett.

The class in home nursing, under the direction of Miss Hellen Hickman, nurse at West Texas State, will start Monday evening and will meet each Monday and Friday evenings at the Red Cross headquarters.

Those enrolled in each course are expected to bring 60 cents to buy textbooks and 15 cents for necessary equipment.

"It is very urgent that everyone be prompt in attendance," stated Miss Hickman. It is urgently requested that no one change nights, but if a change is absolutely necessary, call the health center, Phone No. 53.

Boy Scouts to Gather Old Auto Plates

Boy Scouts in Canyon will gather old automobile plates this spring so that the State Highway department will have metal for making 1943 car plats.

The state has been wondering where metal may be secured, and Boy Scouts are asked to gather up all the old plates for the manufacture of new plates. There are many old plates scattered around Canyon and the Scouts will get these during the coming month.

New plates may be placed on cars March 1. All service stations will be asked to save plates as new ones are installed, and citizens who change their own plates will be requested to turn the 1941 plate over to the Scouts.

Mrs. Price Asks Treasurer Office

MRS. ELZIE PRICE

Mrs. Elzie Price has authorized The News to announce her candidacy for re-election to the office of County Treasurer. Her announcement states:

"I am truly grateful for the privilege of having served you in the office of County Treasurer during the past years and ask for the honor of continuing in this office. I am confident that my experience will enable me to look after the affairs of the office in a more business-like way in the future than in the past.

"I have tried to give prompt and efficient service to all who have bsuiness with this office, and assure each and every taxpayer that I shall continue to give you the very best service.

"It is my desire to see every voter personally during this campaign, but if I should fail to see you I hope that you will consider this statement as a personal invitation for your support and vote in the July primary," concluded Mrs. Price.

Mrs. G. B. Combs Died Unexpectedly Yesterday Evening

Friends were shocked last night to hear of the sudden death of Mrs. G. B. Combs at 7 o'clock. She had been about her home during the day but called Mr. Combs from his work in the afternoon when she became ill. She was not considered serious until 6 o'clock.

The funeral plans are pending arrival of relatives. The body is in charge of the Griggs-Thompson funeral home.

The family has lived on the Plains for 50 years, and have resided in Canyon for 19 years. The deceased was 61 years of age.

Survivors include, in addition to the husband, three daughters, Mrs. C. A. Barker of Wichita Falls, Mrs. J. M. Hart and Mrs. C. V. Lowe, both of Gruver; two brothers, M. D. Womble of Colorado and Troy Womble of Hereford; and two sisters, Mrs. L. R. Bradley of Hereford and Mrs. M. O. Meeks of Amarillo.

Mr. and Mrs. Ray Hardaway and family spent Sunday in Muleshoe.

Federal Stamps on Cars Feb. 1

Several Hundred Car and Truck Owners Must Buy Stamps Before Sat. Night

If you intend operating your car, truck or motorcycle on the highways next Sunday, Feb. 1, you must have the new federal operating stamp on your windshield. The cost of the stamp is $2.09. The stamp is good until June 30. A new stamp must be bought by July 1 which will be good for one year, and this new stamp will cost $5.00.

The $2.09 stamps are on sale at all postoffices.

Canyon has sold more than 600 stamps. Postmaster Guy Harp states that he has received no orders to stay open Saturday afternoon for the sale of stamps, but that the Canyon postoffice will remain open in view of the fact that the last day of the month is Saturday. However, all Randall county car owners are urged to buy stamps before Saturday afternoon.

Car owners are not required to buy stamps in the county of their residence. There are more than 2,000 cars and trucks in Randall county but many citizens living in the north part of the county will get their stamps in Amarillo.

Every car owner who buys a stamp must fill out a card and mail it to the Collector of Internal Revenue at Dallas. These cards will be checked against the list of car owners at Austin and the government will have a full record of all car owners who have bought stamps, and will then check up on those who fail to buy stamps.

Court Continued to Dispose of a New Trial Motion

The January term of District Court was extended Saturday by Judge E. C. Nelson until Feb. 7. A motion was filed for a new trial in the case of Bob Carter vs. Texas-New Mexico Utilities Co. Damage in the amount of $2,500 in favor of the plaintiff was returned last week by the jury. Judge Nelson wanted more time to study the motion for a new trial.

Betty Elane Jennings was given the right to change her name to Betty Elaine Kelleam.

Lee R. Foster, J. A. Guthrie and Clyde W. Warwick served as a jury commission to select grand jurors and petit jurors for the next term of court. This term will be held in April under the terms of the new law changing to three terms per year instead of two terms. The April term will be for only two weeks.

W. F. Martin was indicted by the grand jury Wednesday on the charge of theft and is in jail for lack of a bond in the amount of $1,000.

"In announcing my candidacy for a second term for County Judge, I feel that I should first thank you for taking a chance on me for this term.

"While I have been diligent and faithful in the work of the office and in no way a slacker to the trust reposed in me, yet I cannot urge a claim to your support on that score; loyal service is simply one's duty when he contracts to assume responsibility, without respect to the degree of accomplishment.

Defense Heads Are Selected

Mayor Jarrett, Judge Hunt and Sheriff Cantrell Are Organizing For Any Disaster

Civilian Defense is being carefully organized in Randall county under the direction of Mayor C. H. Jarrett, Judge A. H. Hunt and Sheriff M. E. Cantrell. There are many phases of work, and each branch is being carefully organized to take care of any situation which might arise.

Civilian Defense was started last year under the direction of Mayor LaGuardia of New York City and Mrs. Franklin D. Roosevelt. Its purposes are: "First, to prepare for the day we pray may never come; second, to better the health, economic security and well being of our people."

Air raids may never hit Canyon; invasion may never reach our soil—but if such disasters do come, it is only good sense to be prepared to face the worst than to be unable to cope with such tragedies.

From the vast amount of materials and recommendations made for Civilian Defense, local authorities have formed a County and City Council. Local leaders in various fields have been enlisted to work out plans for different kinds of protection.

Dr. R. A. Neblett and Dr. C. E. Donnell have been appointed to direct public health and emergency medical aid. All doctors and related professional organizations are being enlisted to work under their direction. The First Aid classes are being held weekly, Tuesday, Wednesday and Thursday nights at 7:30 o'clock at the Red Cross Room. Two courses in nurses' aid, or home nursing are being given.

C. L. Thompson is in charge of transfer and ambulance service, helpers are being selected for this work. Instruction will be given in handling persons who have been injured.

T. A. Black is in charge of the registration of civilians for all kinds of work.

Frank Hicks has 25 firemen working under his direction and 16 auxiliary firemen are being trained to take care of large fires which might result from air raids. Volunteers are being selected to act as spotters, watchers, and to serve in the demolition and clearance squadron.

Two Grass Fires Do Damage; Signs Being Put Out

Two grass fires have already done considerable damage in Randall county. Fortunately no buildings were destroyed by these fires.

Both of the grass fires were probably caused by careless smokers flipping lighted cigarettes from passing cars.

County Agent W. H. Upchurch states that more than 250 warning signs have been put over the county, and all of the 500 which were recently printed will be erected in a few days.

Randall county farmers are very much concerned at the danger of fires this spring due to so many weeds piled along the roads and the fact that grass is so high. Land owners are urged to burn the Russian thistles along the roads, but use care that the fire does not spread to grass lands.

Bargain Rates Will End January 31

The Canyon News has extended Bargain Days until January 31st. The subscription rate for The News in Randall and adjoining counties is $1.00 per year up to Jan. 31. Outside this territory the rate is $1.50 per year.

Starting February 1st, the rate in Randall and adjoining counties will be $1.50 per year; and the rate will be $2.00 per year for all points outside the above territory.

The price of producing a newspaper is soaring. The News must raise its subscription rates in order to meet a part of this increase.

Notices have been sent to all subscribers whose time is expiring, and those who do not renew by Jan. 31 must be dropped from the subscription list.

The News hopes that no one will be dropped as a result of having failed to send in their renewal.

Buffaloes Lost at Madison Square Garden Last Night by Score 58-56

Thrilling Game Taken by Long Island University After Buffs Lead Is Cut

The Buffaloes lost in Madison Square Garden last night to Long Island University, 58-56. The game attracted the largest crowd that has packed the Garden this winter, and thousands of spectators were pulling for the Tall Boys from Texas.

At the half the Buffs were leading 25-21. At one time the Buffs had a lead of 11 points. During the second half the New Yorkers gradually cut the lead of the Buffs and as the period ended the lead switched several times and ended 51-all.

The five minute extra time period was a thriller from start to finish. The Buffs missed more shots during this time than did the Blackbirds. The score was 56-all with only 15 seconds to play, with the ball in the possesion of the Blackbirds. They angled into position, taking no chances, and as the clock showed 5 seconds to play a shot at the basket proved good—and the Buffs were defeated by the narrow margin of 58-56.

The Buffaloes made an impressive invasion of the East Saturday night by whipping New York State at Buffalo 105-41. This was the highest score that any major team has run up in the East. When the Buffs moved into New York City Sunday night, their reputation as a fast moving outfit had guaranteed a most hearty welcome.

From New York City, the Buffs move on to Philadelphia today. The team will play St. Joseph's College in Convention Hall Saturday night.

The team will return to Canyon the first of the week to renew Border Conference games. In this loop the team leads with six straight wins. Hardin-Simmons will be met at Abilene Feb. 6.

T. C. Thompson Has Made Unique Lamp

T. C. Thompson has made a unique reading lamp which will be presented to J. W. Bourn Friday on his birthday. Mr. Bourn is called the "Corn King" of Randall county, having raised more than 2,000 bushels of Indian corn during 1941.

The lamp has a base of a cultivator sweep; the stem of the lamp is an ear of corn grown by Mr. Bourn; the shade is a milk pail, and on top is a toy anti-aircraft gun. The entire creation is most unique in design and execution.

"REMEMBER PEARL HARBOR"

Americans now have greater cause to "Remember Pearl Harbor." According to the Roberts report, the commanding officers of the Army and Navy are charged with "dereliction of duty." If these two brass hats had not been so intent upon carrying their own personal ambitions and displaying their self-importance as military commanders of different branches of the service, the tragedy of Pearl Harbor would have been lessened. Had the surprise attack failed, Japan could easily have been discouraged in her war course in the Pacific. But the attack was a complete success—thanks to the lack of diligence of these two high officers.

Democracy is the greatest brand of government in the world, but it is loaded with weaknesses. The greatest of these is the refusal of various branches of government to co-operate with each other. The navy and army have always been at daggar points at peace time, and when war comes it is hard for the brass hats to get down off their high horse and co-operate with other branches of the service. Washington observers have predicted for the past two years that a real shake-up would be necessary before an efficient war machine could be built.

The failure of Admiral Kimmel and General Short is not the only incident in the friction between the two branches of the service. Right here in the Panhandle this brazen disregard of one branch of the service for other branches is being reflected by the underlings who operate the various recruiting stations. For instance, Selective Service requires that men in line for induction cannot be accepted by any other branch of the service. Do these other lines of service recognize this ruling? Not by a long shot. Men are told that they may enlist in any other branch of service up to the date they are to be inducted under Selective Service. In this respect local boards are made the goat, because they can do nothing about it.

One Randall county boy is a prisoner of the Japs. He has been in the marine corps for a year, but the local board has never been notified by this branch that this boy is enlisted with them; another boy has been with the marines for six months, yet this branch has never gone to the trouble to notify the local board.

Every branch of service needs men, and must have men, and local boards do not object being made the goat to a certain extent. But local citizens hate to have recruiting officers thumb their noses at local boards and arrogantly defy orders which are being issued for the purpose of raising armed forces in an orderly manner.

President Roosevelt acted wisely in quickly removing the two derelict officers. If he has impressed upon other high officers the importance of co-operation and is able to establish a system of co-ordination, the tragic loss of men and material at Pearl Harbor may not have been in vain.

In spite of the lessons of the past two years, both the army and navy commanders at Pearl Harbor sneered at the idea of the Japs attacking by plane. Yet that is exactly the implement which did all the damage.

Congress finally awoke to the idea that planes are the most deadly instrument in this war. General Billie Mitchell, who was prosecuted by the army for having dared advocate years ago a strong air force, has been vindicated by Congress. The General is dead, and now honors are piled on his grave. You will remember that Will Rogers and Arthur Brisbane were ignored by the army and navy along with General Mitchell because they advocated something new in the way of armament. To the old fashioned officer, little counts in war except big, bulky battleships and a strong infantry.

Progress comes high when you are dealing with officers who shut their eyes to new inventions and discoveries.

The war has not been lost because of the inefficiency of the high officers, but it may take many months or many years longer than necessary in order to win because of these old fashioned ideas.

THE CANDIDATES

A word to the voters of Randall county is timely, before the campaign gets properly warmed up.

Being a candidate is no snap.

Being a candidate is no joke. It is a serious business in which the candidate is forced to put out a lot of money and to spend a lot of valuable time. The candidate has a great investment in his campaign, and therefore he is going to do everything possible to protect his investment and to win the race if possible.

No one can blame any citizen for asking for a public office. If public offices were not attractive and were not a financial gain to the holder, the public would suffer for the lack of qualified candidates seeking the office. Pay to our public officials should be large enough to attract candidates, but should never be so large that graft and greed should enter into the campaign, or tempt those who hold the office.

The public offices are the property of the public. The voters are guardians of these offices. The voters hire those who fill the offices, and the voters should be as careful in their selection as they are in hiring men and women to work for them in their private business, whether they are farmers, bankers, merchants, or professional men. Hiring men and women for public office holding is a serious problem.

If democracy is to be a success, the voters must hire honest, efficient, capable men and women to fill public office. Friendship should play little part other than to make it possible for the voter to weigh the worth of the candidates.

Every candidate has the right to be heard. Every voter should hear the candidate as he presents his claims for office. After this is done, then the voter must decide for himself whether or not the candidate will make a capable public official, and whether or not he is entitled to the support of the voter. This is serious business on the part of the voter. It is a duty that he cannot afford to neglect or give too little consideration to if he would remain a good citizen.

Some folks think it is funny to embarrass the candidates. They should be forced to make a political campaign at least once in their lives. They would then better appreciate the feelings of the candidate as he seriously does his part in the campaign. Treat the candidate kindly and courteously. They are seeking an opportunity to serve the public and are looking to the voter as their employer.

To Panhandle publishers: Directors of the Panhandle Press Association met in Amarillo Saturday to complete plans for the 33rd Annual Convention on April 10-11. There will be one of the most important conventions in the history of the association. These are changing times, and every newspaper man is confronted with new problems. The convention will try to solve some of these problems. Qualified speakers are being invited to make this a most attractive and profitable convention.

Underestimating your opponent has caused many a defeat. Too many Americans have sneered at the Japs until the little brown devils turned loose on our forces. With a 7,000 mile supply line to their advantage, they have a decided jump on the United States and our allies. No one doubts that in the long run we can whip the Japs. But if we had listened and prepared during the past years, the story today would be different.

New Water Well Lacks Only Pump

Work will be completed on the new water well as soon as a pump can be found. War priorities are making it difficult to obtain it. D L. McDonald of Amarillo, contractor, has had charge of drilling the well which was dug just east of the NYA dormitory.

A rotary drill was used in digging the 496 foot well. The hole is 18 inches with a 12½ inch welded pipe casing. It has been cemented to shut off salt and other undesirable materials. The well will pump 150 gallons of water per minute on a twenty-four hour test. It will be piped into the present reservoir as soon as it is completed and run through a six inch flow line.

The well should be in operation by March 1, according to Virgil Henson, business manager.

Faculty Speakers to Address Soldiers

Faculty members will be asked to prepare speeches for possible delivery at Army camps, it was learned by Dr. J. A. Hill last week.

The government will pay for the service. But because of the long distance from the campus to nearest camps, few calls are likely.

HIGHLAND CLUB HAS STUDY IN DEMOCRACY

"Democracy in the home was the topic of the January demonstration which was presented to the Highland H. D. Club members by Miss Frances Wilroy at the home of Mrs. Jack Baker on Jan. 20.

An interesting thought gained from this demonstration was that working as a unit, whether in the home or in the club, helps to create courage, faith and understanding and makes sacrifice more easily borne.

"Every demonstration or program given in Extension Work is important only to the extent to which it develops a more satisfying and happy home,"is a reminder given in the H. D. Club year book.

Mrs. Baker served refreshments to five guests: Mrs. Henry Brumme, Mrs. Earl Norman, Mrs. Jack Cage, Mrs. H. H. Elam and Mrs. C. H. Roark; and members: Mrs. Vernon Stanley, Mrs. Ray Debenport, Mrs. Truman Miller, Mrs. Pearl Nesselroad, Mrs. Geo. Cook, Mrs. Jack Fuqua, Mrs. J. R. Talley, Mrs. Elmer Mason, Mrs. Billie Miller, Mrs. Clayh Fuqua and Mrs. L. J. Fulton.

The club will meet at the home of Mrs. Elmer Mason on Feb. 3. "First Aid" is the study topic.

KILLED RATTLER SUNDAY

A most unusual incident happened Sunday when Mr. and Mrs. LeRoy Leavitt and her parents, Mr. and Mrs. O. M. Scott, were out hunting rabbits south of Umbarger near the Money school house. While walking along they came upon a large rattle snake, which excited them no little, because rattlers usually do not make their appearance before May. It certainly would pay all those who are out in the pastures to watch out for the rattle snakes even though it is several months before their regular date for appearing.

Esquire Soon to Publish Article About Tall Team

An illustrated article on the Buffaloes will appear in Collier's of the issue of February 14, it was announced yesterday by the College News Service. The magazine will reach the news stands February 6.

Recognition of West Texas State's tall team is reaching tremendous proportions as the nation's sports writers strain for adjectives to describe the color and finesse of the Buffaloes.

Esquire magazine will devote most of two pages (pp. 65 and 101) in its March issue to an article entitled "The Buffaloes Are Coming." This will carry the by-line of James McQueeny, nationally known sports writer. McQueeny, a Kansas City man, became interested in the Buffaloes when they entered national tournament play. He gathered material on two trips here.

The article describes in great detail the building of Buffalo Courts, development of the tall team, and personalities of recent quintets. The magazine will go on sale February 13. Copies coming to Texas will have special wrappers referring to the article, according to Olin E. Hinkle, director of journalism.

Coach Al Baggett's recent airplane flight to New York City (paid for by Ned Irish, basketball promotor at the Garden) was a publicity smash, resulting in columns and articles in thousands of newspapers in all parts of the country. The current road trip is building upon this basis.

Life, Look, and Time previously noted the prowess of the tall team.

Hobbies Discussed at Rotary Lunch Tuesday by Cole

Levi Cole talked on hobbies Tuesday at the Rotary Club luncheon. A hobby was defined by the speaker as something you do because you enjoy it. In your hobby you have a small world all of your own in which you are refreshed for your regular vocation.

The five leading hobbies are: photography, stamps, music, model making and home work shop.

More than a hundred million dollars are spent annually on photography; fifty million on stamps; ten million on model building; two million on home work shops.

Mr. Cole follows his stamp hobby in the winter and gardening in the summer. He has been collecting stamps for 30 years and has a collection valued at about $2,000. In collecting stamps, history, geography and personalities are revealed to the collectors. Mr. Cole has about 15,000 different stamps. 150,000 different stamps have been catalogued and evaluated. More than 10,000 families follow a budget plan in collecting stamps to lay away funds to send their children through college.

Mr. Cole is noted in Canyon for his garden and flowers. Dahlias are his principal flower.

Dr. A. M. Meyer announced that on Feb. 21 a Dahlia party would be given at the college in order to raise funds to carry on the work of the Southwest Dahlia Society. Dr. Meyer believes that when the Dahlia proving ground gets under way the flowers will attract as much attention as the Museum.

Visitors were: Dr. A. Bloom, A. A. Meredith, John McKnight, Irving Tolzein, Ted Neeley, E. Kancher, Forest Barnes, Jess Rogers, all of Amarillo.

Class Hours to Be Changed Feb. 9 As Clocks Move

West Texas State and the Canyon Public Schools will do a double time shift February 9 when the nation's clocks are moved up an hour to save daylight by using more of it.

It is a good theory, but in this time belt the change would defeat its purpose. Accordingly, the College will start 8 o'clock classes at 9 a. m. and lunch time will be 1 p. m. In other words, classes will actually meet at the same sun time as now.

Many Courses Are Announced

Business Department Has Pyramided Classes—Other Changes Are Numerous

More than 30 classes identified by federal departments as defense courses will be offered by West Texas State College in the spring semester opening February 2. These will be available to all students and to other persons desiring the instruction.

The business department, headed by Dr. Lee Johnson, will offer a pyramided program designed for students who wish to prepare quickly for government or business jobs. In some instances an entire year's instruction will be crowded into a subject during the spring semester. Starting and advanced courses will be offered in shorthand, typewriting, and bookkeeping. Machine bookkeeping, with practice on adding, calculating, and posting machines will be taught. Other classes will deal with an introduction to business, business English, accounting, business law, corporation finance, cost accounting, budgetary control, income tax procedure, and sales management.

College men are especially interested in courses in welding, sheet metal work, radio, map and blueprint reading, internal combustion engines, and mechanical drawing offered by the department of industrial arts.

Dealing with health and safety are courses in first aid, safety education, and home nursing. There will be a repetition of a chef's course for boys and another on preparation of food for the sick. The Red Cross will direct several of these courses. Conversational Spanish will be repeated, as also will be military drill taught by Lieut. A. R. Donnell of Amarillo. A course in dietetics and another for Nurses' Aides are being organized.

Men expecting draft calls and those already enlisted in the Navy but remaining in college to finish prescribed courses will take such courses as photography, trigonometry, analytic geometry, college algebra, physics, and chemistry. Such work is necessary to prepare them for technical positions and commissions in the military services.

Navy recruiting officers were here this week to enlist sophomores, juniors, and seniors. Some of these men will take three months of training next summer. Juniors will return next year to complete work for their degrees. Their Navy enlistment service dates from their acceptance and continues while they are in college. Many college men will avail themselves of this opportunity to complete their college work while preparing to become Navy fliers and officers.

Navy men must have trigonometry, and to be eligible for this they must have college algebra. The war has brought a rebirth of interest in mathematics.

The College will add other courses as the needs arise. On June 3 it will start a 12-week summer session on the quarter plan, instead of the semester system. There will be two 6-week terms. The quarter plan will be continued next fall and thereafter. This provides a more flexible system with more frequent graduations possible.

West Texas State is now fully geared to the war effort, with a complete program of "speed-up courses requested by the federal government. Equipment for teaching technical and mechanical courses is valued at more than $200,000. The regular faculty is being supplemented by special instructors as necessary.

Much Equipment Is Ready for Industrial Arts Defense Classes

Both College and Outside Groups May Take New Classes for $7.50 Each

Equipment valued at more than $200,000, some of it placed by the federal government, will be used by the department of industrial arts in defense courses at West Texas State in the spring semester opening February 2.

Courses will carry regular college credit and regularly enrolled students will pay no extra fees. Out-of-college men and women may take the courses for a fee of $7.50 for each class. Some courses are planned to be of specific use in the military services and others for work in defense plants.

The classes will include welding, internal combustion engines, radio, sheet metal, blue-print and map reading, mechanical drawing, bench woodwork, printing, advanced millwork, and carpentry. Most subjects will be taught by Prof. John Gillis and Prof. W. Holmes Smith, but special instructions will be used in other courses

Most of these classes have been under way for a month. Night classes are available in some instances.

In radio, elementary principles will be studied and codes will be learned. There will be some repair and testing.

A course in photography will be taught by the instructor in journalism. This will include classwork, field trips, and laboratory experience.

With outstanding organizations in the athletic, journalistic, musical and agricultural fields, Canyon High School has achieved worthwhile recognition in all contests in which it has participated.

Although a great many loyal supporters attend practically any school-sponsored event, a still larger proportion of the city's populace is rarely aware of any outstanding Canyon Public School accomplishments.

Of course West Texas State College would be expected to check the attendance of such high school activities; but each of Canyon's 3,000 inhabitants would make it a point to attend at least one school-sponsored activity during each year, there undoubtedly would be a more prosperous school, and therefore a more well-rounded school.

Council Organize Youth Societies

Youth Delegates Constitute Committee Representations

Motivating concerted effect and organization, one of the greatest needs of national defense, a youth council will hold its first meeting Saturday, January 31, in Thompson's Club Room.

Plans for the new organization show representatives coming from each youth club of Canyon. The Spanish Club, the Student Councils from Canyon High and West Texas High, Future Farmers of America, Future Homemakers of Texas, Girl Scouts, Boy Scouts and church organizations will constitute the representation to the council.

Because the national crisis has brought out one of the great needs of unity to help put over the defense program, the council will be started on that basis.

"We can do our part better by working together," said Miss Rose Parsley, who will meet with the club for the first time.

Basketeers Face Dumas Demons

Basket ringing sharpshooters from Canyon High School will try to win their way to the victory list after being on the slight downgrade for several weeks, when they journey to Dumas, Tuesday night to clash for the last time before entering the District 1A Tournament at Friona, February 13-14.

The Eagles have not yet entangled with the Dumas Demons, who are coached by Lawrence Brotherton, former Canyon coach, but they will take to the floor, determined to tower above the Demons' score.

Eagle B. hoopsters will probably be J. Spencer Winn, center; James Thomas Harp and Al Hunter, forwards and George Black and Frank Sharman, guards.

Wayne Wirt, center; Clarence Thompson and James Wright, forwards; and Calvin Sanders and Jack Farley, guards, probably will carry the first string banner as starters.

Band Director

Harold Barnett, new band director, performed on his cornet at the Lions Club last Thursday noon in the First Christian Church. Miss Anita Davis played the piano accompaniment for Mr. Barnett who entertained with the numbers, "Apollo Polka" by Clarke and "None But the Lonely Hearts" by Tschaikousky.

Homemakers Get Educational Tours

The second-year homemaking class, under the supervision of Miss Lila Clark, studying the unit, "Equipping the Dining Room," has made several education tours.

Visiting Thompson Hardware Company, Mrs. T. S. Maxwell explained the purchasing of kitchen ware, stoves and mechanical refrigerators.

In the Home Management House at West Texas State College, the girls studied the arrangement of planning units and shelving.

Climaxing the study, a student teacher supervised the remodeling of the foods laboratory.

Cardinals Defeat Canyon Eagles

Time stopped the Canyon Eagles last Saturday night as they fell before the Price Cardinals 35 to 27 in Amarillo. The Eagles seemed to find the goal in the last quarter and were gaining rapidly as the game ended.

Wright Scores 8 Points

James Wright scored the most points when he hit the goal for four field goals and one gratis throw. Price's Van Dever scored 11 points for the victorious Cardinals.

Sharman Tops Scorers

In the second string game, Price B team avenged a one point defeat handed them earlier in the season, when they crushed the B team 32 to 16. Frank Sharman scored 8 points to take scoring honors with Price's Hunkamp who also scored 8 points.

Sanders Praises Eagles

"I believe the Eagles played their best game of the season Saturday night," said Milton Sanders, who coached the Eagles while Coach Wesley Cox was away, "but the ball just jumped out of the goal."

Classes Attend Meeting Friday

Again the six classes of Canyon High School flocked to their respective rooms for 20 minutes of meetings and business Friday afternoon.

The seniors decided to present Stuttering Sam's musical comedy show featuring stunts, stumbling, stuttering, imitations,, imaginations and impersonations. The play will be staged in the high school auditorium February 26.

They decided to have tryouts February 3 for roles in "The Take Off," the Senior Play, which is to be presented March 12.

Theresa Nell Blewett, George Black and Barbara Michael were appointed by Martha Jean Dowd, junior president, to select a movie film to be shown to the student body soon.

Hinkle Sponsors Press Meeting

Convention Topic Follows National Crisis Theme

Four hundred delegates and their sponsors are expected to attend the annual session of the Panhandle High School Press Association at West Texas State College in Canyon on February 7.

The theme of the convention will be the national crisis and what high school students can do to assist. Unless called from the state by some emergency, a high official of the Associated Press will be the main program speaker.

Meeting Begins at 9 O'clock

The delegation will open at 9 o'clock, Saturday morning and close with a reception-dance given, after adjournment, by Type High, the college press club.

Two banquets, one at the Methodist Church and one at the West Texas State Cafeteria, will be served at the noon hour. At 5 o'clock in the afternoon, the Chamber of Commerce will serve a luncheon at the college cafeteria.

Members of the Canyon High Journalism Class will be hosts at this year's meet. Special committees are at work planning the banquet and other details for the meet.

Judges Acclaim Top Amateurs

Journalists Declare Night Program a Big Success

With four separate divisions and prizes for each division, Amateur Night, sponsored by the press club, drew a large crowd last Thursday night at 7:30 o'clock in the high school auditorium.

Donnie Hicks and Doris Ann Jennings, dressed in Indian costumes and singing an Indian song, seized the hearts of the waiting crowd and received the prize of $1 in the grade school entries, while the tomboy-dressed Helen Jo Cox of the high school division took the prize for reciting a poem, "Seein' Things at Night."

Musicians Take Prizes

Playing the saxophone "in a certain way" caused Clovis Shepherd to be presented with the $1 prize for the outsiders' entries, while Bill, Bert and Harris Brown did a rendition of "New San Antonio Rose," and "Rubber Dolly" and received the $2 prize in the group entries.

In the grade entries, other participants were the second grade which gave a play, Jimmy and Bertha Lee Lindsey, Sammy Don Schramm, Marie Presley, Faye Dickerson, Louise Prichard, Sue Dickerson, Max Bellah and Fanny Alice Pierce.

High School Entries

Among entries in the high school division were Mary Alice Campfield, who played a piano solo, a song by Fawn Rogers, an accordion solo by Katherine Hill, a reading by Jimmie Jo Duke and a song by Clavel Boling.

Those in the outsiders included a song by Hilda Hinds and Myrtle Jones, violin duet by the Osborne twins, Rube impersonation by E. V. Brigance and a dance by blackface comedian, Ralph Higdon.

Group Entries

Group entries included sketches by the homemaking club, Freshman Class, humorous reading by Mildred Merchant for the Sue Hite Study Club and two pieces by Johnny Harter's swing orchestra.

Band Parents Plan Monthly Meeting Featuring Concert

Featuring a concert by the Eagle Band, the Band Parents will hold their monthly meeting February 3, at 7:30 o'clock in the high school auditorium.

A cornet solo, "Lily Polka," will be played by Dan Cabe.

"As president of the Band Parents, I extend a cordial invitation to all members of that organization and to any others who might be interested in the band to attend the meeting Monday night," said Mrs. Buck Moore.

Do your shopping in Canyon!

Dickerson Carries Flag of Congress

Leading in the official tally, Gordon Lynn Dickerson, senior, and Dick Woods, junior, will carry the flag of the Student-Faculty Congress as president and vice-president, since the defeat of their opponents, Friday.

The officers were installed Tuesday at the regular meeting of the Congress to organize and discuss the work under the direction of Principal J. F. Dickson for the remainder of the year.

Gordon Lynn said, "Thanks for the votes and I'll fill my position with the best of my ability."

"Nothing definite has been planned for the Congress as yet, but we have several objectives in mind," affirmed Mr. Dickson.

Merchant Submits Job Requirements

"Honesty, neatness, cleanliness, tact, energy and self-confidence are the requirements necessary for any job seeker," said T. A. Black to members of the Senior Class who are studying a vocational unit from 10 to 11 o'clock each morning.

Mr. Black said, "If one doesn't operate a store scientifically, he will go out of business." He added, "If a choice made be between them, 'bread and butter' items, or necessities are more important to have stocked than luxuries."

Discussing the requirement of a person inquiring for a job, Mr. Black informed his listeners, "Make yourself good in whatever you do. When you are really good in anything, jobs will be hunting you; you won't be hunting a job.

"People don't give a person a job because he needs it."

"You have to work; there are no easy jobs. Do your job so well, it is easy," he advised.

Concluding his talk, Mr. Black admitted, "Salesmanship is a big field. One even has to sell himself to the people and one can conquer the world with a smile."

According to some of our esteemed faculty members, Mr. Webster would have to make many alterations in his dictionary in order to accommodate Canyon High School's spellers.

Several of Canyon's patriotic students have finally discovered an excusable excuse to excuse spinach from their diet. They claim Uncle Sam needs the iron.

Because of the high school teachers' strictness in relation to chewing gum, some of Canyon's more resourceful scholars are investigating the possibilities of toothpicks and matches.

Finding Canyon High's choicest feminine multitude previously employed in courtship activities, J. T. Harp investigated W. T. High's unoccupied damsels. As a result of his investigation, Shirley Byers is trying to prevent his future lonesomeness.

Good advice from the Amarillo News—"Aged men are beginning to worry, for in Britain, they are getting the gold out of their teeth, the silver out of their hair and the lead out of their pants."

Still raging strong is the romance between sophomores Charles SoRelle and Juanita Anderson. No matter what the setting is, Cupid always manages to squeeze into the scene.

Bobbye La Fon graduates at midterm, but Ray Nickelson isn't going to let that keep him from experiencing the sensation of a short romance. The thermometer registered moderate heat when they were seen climbing the steps; but nevertheless, Ray had his arm around his black-haired dream-girl.

Last week it was reported that Leroy Wooten had a new flame. Apparently, the match had scarcely struck when it was extinguished. Martha Jean Dowd accompanied him from Amateur Night last Thursday.

Anita Davis and Martha Jean White—that's trigonometry! make bigamy — but with Frankie

Once upon a time
I wrote a little rhyme.
I tried to get it published,
But everyone thought it rubbish.

No one on earth would buy it;
They wouldn't even take it.
First they said it was punk,
But then they said it stunk.

Knowing no other solution,
I made a resolution:
Said I'd take journalism,
And put it in Cal's confusion.

New Staff Assumes Duty at Semester

Group To Exhibit Red Cross Work

Every member of Mrs. L. M. Cousins' fourth grade has contributed to the 23 knitted blocks and the 31 woven blocks which will be turned in to the Red Cross. The woven blocks are seven by seven inches and the knitted blocks are six by six inches. Out of a 39 cent skein of yarn, one may weave five blocks or knit two and one-half blocks.

John B. Lyons has woven 12 squares and now has another skein to weave into blocks.

Also, for their Junior Red Cross activity work, the class is making flannel hot-water bags.

"I think I have never seen such enthusiasm and patriotism as the boys and girls are exhibiting. They are so happy when they finish a block and get started on another," stated Mrs. Cousins.

Bobcats Defeat Battling Eagles

Second String Game Is Decided by Overtime

Without their coach, Wesley Cox, the Canyon Eagles fell before the Dimmitt Bobcats last Tuesday night 32 to 19 on Dimmitt's court.

Wayne Wirt and Jack Farley hit the basket most for the Eagles with five points apiece to their credit. Curtis of Dimmitt led the Bobcats with 17 points.

Sharman Is High-pointer

In an overtime period, the Eagles' B team was defeated 49 to 42 with the aid of three first string Dimmitt starters. Frank Sharman led the Eagles with 12 points and shared the honors with Al Hunter who scored 11. Curtis again scored 17 points to lead the Bobcats' second string also.

When the game ended, the Canyon scorebook showed the game to be tied—41 all; but Dimmitt's book was one point in favor of Canyon.

With three first string players, the Bobcats scored eight points in the three minute overtime period against the weakened Eagles who had no substitutes and one player with a sprained ankle.

After completing junior college work at Clarendon, her home, she graduated with honors and a Bachelor of Arts degree from the University of Texas.

Miss Pratt plans to complete her degree in library science at the Texas State College for Women in the summer of 1942.

Cabe Will Direct Staff of Paper

Harter - Robinson Accept Positions on Eagle's Tale

Following a custom of changing editorial staffs of The Eagle's Tale at the end of the first semester, Dan Cabe, Grace Robinson and John James Harter will head the organization as editor, assistant editor and business manager.

Dan, first acting president of the newly formed Student-Faculty Congress, member of Quill and Scroll, a journalism letterman, six year band member, member in his Junior Class play cast, two times a first place winner in regional music festival and second place winner in state music festival, will succeed James Harp as editor before graduating in the spring.

Robinson Is Assistant Editor

Grace Robinson, a one-year member of the Lewisville High School choral club, had participated in several extra-curricular activities before moving to Canyon. These activities included being a two-year member of the Future Homemakers of Texas, a second and third place winner in yearly scholastic rating, reporter to the school publication for three years from her class each year, a first-place winner in essay writing at a county meet and winning a medal for scholarship.

Harter Will Be Manager

John James is a member of the Junior Honor Society, treasurer of the Junior Society, a six year band member, lettered in journalism last year, a first place winner in the regional music festival, candidate for secretaryship of the Panhandle High School Press Association and is a member of the Student-Faculty Congress and was a candidate for presidency of the Congress.

"Although the past members of the staff have done a superb job of editing the paper, I feel sure that the new editorial staff will profit by the mistakes of those who have gone before them; and I am expecting them to turn out some of the best papers that Canyon High School ever has seen," asserted Mrs. Carl T. York, sponsor of The Eagle's Tale.

FFA Boys Enter Judging Contest

The Canyon Chapter of the Future Farmers of America will enter the Hoards Dairy Cattle Judging Contest, which is to be held February 12.

The boys will judge the cows from the pictures that are sent to them.

Six of the fifty-two pigs owned by the combined Canyon High and Demonstration School F. F. A. Chapters have been sold at a profit.

The agriculture engineering class has been building hogfeeders, hoghouses, hog-troughs and calf feeders.

Since there is to be an F. F. A. State-wide radio program, the Parent-Student Banquet will not be held at the regular date. No date has yet been set.

Grade School Receives New Spanish Readers for Study

Among the new readers received by the grade school this week was a sample set of Spanish readers for grades three, four, five and six. They were received early so that the teachers who will teach them can make an extensive study of the books.

The vocabulary of the readers is limited to words and idioms which the children know and read all the time in their English readers and is on the same level.

The activities, action lessons and games contained in the reader may be performed in the classrooms. The activities and action lessons are the favorite activities of the children.

"The public schools of Texas may teach Spanish in the grades if they desire; and we are very fortunate to have two teachers who will do this next year," commented Miss Elva Fronabarger, principal.

Winstead Celebrates Birthday With Eagle's Tale Members

Because of Pauline Winstead's birthday on Tuesday, Mrs. P. V. Winstead sent an angel food cake iced with divinity icing Monday afternoon to the members of The Eagle's Tale.

Expressing the appreciation of the entire staff, Johnny Harter said, "It was a pleasant surprise; and it was the best cake I ever tasted. I hope Polly has several birthdays a year."

Dr. Hill Voices Education's Aims

Broad Program Needed To Meet Normal Demands in Addition to Emergency

A deeper understanding of the American way of life—what it means, what it costs, and how it may be defended—is essential to the national welfare and this need is a challenge to education at this time, Dr. J. A. Hill said in assembly Saturday.

He described how England had organized its colleges for defense and the importance placed on expediting graduation of students. He declared Hitler's strength is the fanatical support of the young, who have been taught the Nazi ideologies almost from birth.

In reviewing more than a score of addresses he heard at defense conferences in Baltimore, Washington, and Austin, Dr. Hill warned that "general hysteria will help our enemies." In pointing out that only a small per cent of the nation's men can be in the front lines, he stressed that the government spokesmen urged college authorities to make sure that training for normal living continues. Aside from providing certain defense courses, the colleges are expected to train students to face post-war problems.

The Army is urging that thorough courses in physical education be made compulsory. It wishes enlisted men to have a historic approach to the present world situation. Millions of Americans must learn foreign languages. The stress right now is on Spanish and Latin-American history.

All colleges are being urged to speed up their programs as West Texas State is doing. Services must be greatly expanded. The Civil Service is taking 20,000 additional persons a month and asking for more. These must be trained in economics, statistics, accounting, cost accounting, meteorology, physics, chemistry, nursing, and stenography. Typists currently are in demand. The military services need technically trained men. There is much emphasis also on fire-fighting, first aid, safety, and rehabilitation of the wounded.

Spokesmen emphasized that a system of adult education is long overdue.

In many branches of the government, a college degree is the minimum requirement. For this reason, students are being urged to remain in college without a lapse until degrees are obtained. Dr. James W. Studebaker, U. S. commissioner of education, was quoted as follows:

"It is the patriotic duty of every American youth to get the best possible preparation both for the war and the post-war period."

Commissioned

SAM A. THOMAS, JR.

One of the youngest commissioned officers in the U S. Army Air Corps photographic division is Lieut. Sam A. Thomas, Jr., now stationed at Spokane, Wash. He is a son of the Rev. and Mrs. Sam A. Thomas of Dalhart, formerly of Canyon.

Young Thomas was graduated here last spring. He took a course in photography and was photographer for Le Mirage last year.

On enlistment he was sent to the Army photographic school at Lowry Field, Denver. His progress was so good that he was one of twelve selected for staff officer training. On completion of this course he was commissioned and sent to his new post. He is 22 years old.

His father was a communications expert in World War I and was awarded the Croix de Guerre and other honors for outstanding service under fire.

Lions Club Hears Naval Recruiting Man Thursday

Presenting a musical program and naval speaker, Roy Cheatham was in charge of the regular luncheon of the Lions Club last Thursday noon.

He presented Harold Barnett, new band director at Canyon High School, who gave several contributions on the trumpet, accompanied at the piano by Miss Anita Davis, a student at the high school.

Melvin Cobb, a senior in Amarillo high school, who is well known for his radio entertainment, gave several popular vocal numbers. He was accompanied by Weldon Bright at the piano.

Ray Cole introduced C. E. Norman, who is in charge of the Amarillo naval recruiting station. He stressed the importance of all men enlisting in that part of the navy or army for which they are best qualified; thereby saving the government the expense of replacements.

Guests at the meeting were Dean Lowes, Jack Jouette, Seymour Rusk of Sundown, and George Elder of San Diego, Calif., brother of Lion Joe Findley.

of Police John Guthrie, together with all deputies are organizing to take care of disorders which might follow any raid, which would handicap workers in case of disasters.

Canyon is being divided into twenty districts. Air Raid Wardens and assistants will be appointed over every district. These wardens will soon call at all homes, telling citizens what to do in case of raids. Blackouts will be under the direction of Sheriff Cantrell and Mr. Guthrie.

The experience of England in handling raids is being followed. So far it does not seem necessary to prepare air shelters, but citizens will be shown the safest places in their homes in which to seek shelter.

As the program progresses, Mayor Jarrett and Judge Hunt will make changes in the organization and correct any difficulties which may arise from the organization.

"We want to be prepared to meet any emergency which may arise," stated Mayor Jarrett yesterday. "To do this every citizen must be a good soldier. To be a good soldier does not necessarily imply skill in handling a troop of men or operating a gun; but the first requirement is obedience to leaders. The ability to obey is the greatest qualification necessary in time of disaster," stated Mr. Jarrett.

"It is implied by this provisio that if the office holder has been sincere in his purpose that he may again ask for endorsement at the polls. However, the unique saying, 'Don't swap horses in the middle of the stream' doesn't prove anything if the horse's gait and habits do not fit the job.

"During my first year in office I have diligently sought to become acquainted with all of the details of this important office, and to render service to all who have business with this office. I trust that you will consider the record I have made as a public official, and if you approve of the services which I have rendered that I may be privileged to continue serving you in this office. record in this office. If this record meets your approval, I shall certainly appreciate being considered favorably as a candidate for re-election to the office.

"I have greatly appreciated serving the people of the county, and assure each and every one that your kindness of the past has made my work very pleasant. I have tried at all times to render prompt, efficient and courteous service. This office handles the records of Randall county. These records must be carefully preserved, correctly entered and kept up to the minute. I have tried to do this work diligently and to represent each property owner so that future difficulties with title of property may be avoided. If you approve of my work, I shall give you my best efforts in the future, as I have in the past.

"I trust that I shall be able to see all of the voters during the campaign and to discuss my candidacy. If I fail to see any voter it will be entirely unintentional and I take this method of asking every voter for your support and vote in the July primary," concluded Mr. Holt.
